Introduction

With the second **Basic Fantasy RPG Field Guide** almost done (and a third in initial stage), you may not realize just how many monsters are available to use! I created this index for three key reasons:

First, monsters listed by Hit Dice (HD) make it a lot easier to create encounters for an adventure.

Second, having monsters also being listed alphabetically makes it easier for you to find a monster that appears in an existing Basic Fantasy RPG adventure, so you can quickly look up a monster's statistics and details. This is especially helpful if the adventure doesn't mention exactly which book the monster came from.

Finally, if you are creating a monster, whether for an adventure you are writing or for submission to a Field Guide, this index can help you see what has been created so far, and thus avoid wasted effort. It might also help point the way for creatures we may yet still need or want.

Page numbers are given below for all monster entries in the **Basic Fantasy RPG Core Rules** as well as the first two **Basic Fantasy RPG Field Guides**. For the Core Rules, note that page numbers are correct for the **3rd Edition, Release 107**, and may not be accurate for other editions of the rulebook. **Field Guide Volume 1** monsters are correct as of **Release 31** of that book, and **Field Guide Volume 2** monsters as of **Release 32**. Page numbers begin with a C if the entry is in the Core Rules, an F if the entry is found in Field Guide 1, and a G if in Field Guide 2.

Also note, if a monster's Hit Dice are listed as a range (i.e. "7 to 9"), that monster will be repeated in each relevant Hit Die group.
